

NeuroTexas Institute

# Brain & Spine Tumor Program

## An expert team at your side

NeuroTexas Institute at St. David's HealthCare is leading the fight against brain and spine tumors in Central Texas. Our multidisciplinary team combines the expertise of neurosurgeons, medical oncologists, radiation oncologists and pathologists to provide a complete continuum of care that incorporates best practices with the most advanced technology and access to the latest therapies and cancer clinical trials.

Improving the quality of care is central to our mission, providing evidence-based clinical protocols for our patients. Our weekly physician conferences review the plan of care for each of our patients with timely communication back to the referring physician. And our patient-focused approach emphasizes warmth and compassion, enlisting family and friends in the healing process and ensuring our patients' physical, emotional and social needs are met.

At NeuroTexas Institute, we believe that complex conditions require complex solutions—solutions you count on when an expert team is at your side.

## Program overview:

- Seamless access to cutting-edge brain and spine tumor physician expertise
- Minimally invasive endoscopic procedures resulting in shorter recovery time
- Image-guided surgery and advanced diagnostic imaging technology
- Latest chemotherapy treatment options
- Potential enrollment into clinical trials
- Conventional radiation therapy technology and stereotactic radiosurgery
- Multidisciplinary physician weekly conferences to review plan of care
- Compassionate and dedicated neurological nursing team
- Coordination of care supported by a Nurse Practitioner
