

# Primary Stroke Center

## When timing means everything

The St. David's Medical Center Primary Stroke Center combines an expert understanding of stroke with the most advanced diagnostic and treatment technology to provide our patients the best possible care and outcomes. As a Joint Commission certified Primary Stroke Center, we offer the highest level of stroke care available in Austin and Central Texas.

Our specialized, multidisciplinary team comprised of physicians from emergency medicine, neurology, neurosurgery and interventional radiology coordinates the comprehensive care of every stroke patient who comes to our facility from the initial contact in the Emergency Department through hospital care and the transition home or, if necessary, to our neurological inpatient rehabilitation facility.

Because timely treatment is so essential, our one-call program facilitates transfers and referrals from other hospitals or clinics and offers patients the most advanced and effective neurovascular treatments.

## Our Primary Stroke Center offers:

- TIA Center for expeditious work-up, lectures on prevention and comprehensive diagnostic and treatment program
- Swift triage, diagnosis and treatment within the Emergency Department
- Emergent intravenous and intra-arterial tPA (clot buster)
- Advanced neurovascular minimally-invasive procedures
- Compassionate and dedicated neurological nursing team
- Inpatient and outpatient neurologic rehabilitation services
- Social services, Stroke Support Group and family counseling

St. David's Medical Center Primary Stroke Center, a program of NeuroTexas Institute offers Central Texans the best in compassionate and expert stroke care.
